Eyes...Lighting out...Life is disappearing
Candle...And flame...Means the end death.
Welcome her!

Voices...There the voices I am opening... eyes and I gape.
I...Lie silenky... Candles around and I see it.
Welcome here!

The voice is dominy to me and whispers.
It's not your end.

You'll find everything that was hidden from you.
You'll find everything that was hidden is the world.

Father...My father...It's a long time since you've died.
There is your sisters...And mother too. . . Give the greetings.
There is your wife.

My darling. My darling. I love you, my
Darling.

Now it's the time, time to say good bye.
Now you'll see Chat you dreamed of.

Oh my god, that's not me.
